SUMMARY

Detail-oriented and motivated Computer Science student in the final year at PJATK, aiming to start a career in **Quality Assurance**. Actively preparing for **ISTQB Certified Tester Foundation Level (CTFL)** while building practical skills in **manual testing, test case design, bug reporting, and basic automation** with **Selenium and Java**. Strong technical foundation in **C#, Java, and SQL** supports collaboration with developers and understanding of system behavior. Known for **attention to detail**, structured documentation, and a passion for improving software quality in games and digital media.

EDUCATION

Polish-Japanese Academy of Information Technology
Computer Science, BSc

October 2022 – Current
Warsaw, Poland

PROJECTS

Vaultive: Media Streaming Platform [↗](#)

Mar 2025

C#, JavaScript, CSS, HTML, SQLite, REST-API, ASP.NET

- * Built a platform that aggregates movies, documentaries, and short films from services like Netflix, Disney+, and Apple TV into one accessible interface.
- * Developed the backend with **C#** and **ASP.NET**, implementing user authentication and organized data handling; employed **SQLite** alongside Entity Framework as the ORM.
- * Designed the frontend using **HTML**, **CSS**, and **JavaScript**, focusing on responsive, user-friendly layouts; enabled client-server communication via **RESTful APIs**.

QA Practice Suite: Manual & Selenium Test Portfolio

May 2025

Java, Selenium WebDriver, Jira, TestRail, Postman

- * Created a **manual test plan** for a sample to-do web application, writing test cases for login, CRUD operations, and error handling.
- * Logged defects in **Jira** with detailed steps to reproduce, screenshots, and severity classification.
- * Practiced **API validation** with Postman to verify endpoint responses and negative scenarios.
- * Demonstrated understanding of QA fundamentals, from **test case design** to **basic automation scripting**.
- * Included exploratory tests inspired by **functionality QA** and **localization QA** practices common in game and media testing.

ACADEMIC ACTIVITIES

Student Council of Polish-Japanese Academy of Information Technology

Oct 2022 – Current

Student Council Member

Warsaw

- Actively participated in the International Committee at PJATK to enhance student engagement and foster a welcoming campus environment.
- Attended university events and connected with students to gather insights and feedback for improving student life.
- **Shared suggestions** for future activities based on student interests and feedback, contributing to the planning of social initiatives.

DevFest Warsaw

November 2024

Attendee

Warsaw

- Engaged in technical talks and workshops on Google technologies, AI, and cloud computing.

Hackathon Krakow

November 2022

Attendee

Warsaw

- Gained insights into hackathon workflows, idea validation, and rapid prototyping.
- Connected with developers and mentors, expanding knowledge of real-world coding challenges

CERTIFICATIONS & TRAININGS

- ISTQB Certified Tester Foundation Level (**In Progress – September 2025**)
- AWS Academy Cloud Foundations [↗](#)
- Foundational C# with Microsoft Certification [↗](#)

TECHNICAL SKILLS

- **Testing Tools & Techniques:** Manual Testing, Test Case Design, Jira, TestRail, Postman, Basic Automation (Java & Selenium)
- **Programming Languages:** Java, C#
- **Backend Development:** C# REST API development, Node.js, ASP.NET
- **Frontend & UI Frameworks:** Jetpack Compose, HTML, CSS, JavaScript
- **Database & Data Management:** SQL (MS SQL Server, Oracle, MySQL, PostgreSQL)
- **Version Control & Tools:** Git, GitHub, Swagger
- **Software Development Concepts:** OOP, Agile Basics, SOLID, KISS

SOFT SKILLS

- **Key Skills:** Attention to Detail, Bug Reporting, Documentation, Communication, Critical Thinking
- **Language Skills:** Turkish (Native), English (Fluent), Polish (Beginner)
