SUMMARY

Final-year **Computer Science BSc student** at PJATK, specializing in **Quality Assurance**. Practical experience in **manual testing**, **test case design**, **bug reporting**, and **API/UI validation**. Preparing for the **ISTQB CTFL certification** (expected Sept 2025) while building automation skills in **Java & Selenium**. Strong technical foundation in **C#, Java, SQL**, and **REST APIs** supports collaboration with developers and accurate analysis of system behavior. Recognized for delivering **structured test documentation**, **reproducible defects**, and improving **software reliability and user experience**.

EDUCATION

Polish-Japanese Academy of Information Technology

Bachelor of Science in Computer Science

Oct 2022 – Current

Warsaw, Poland

- Relevant coursework: Software Engineering, Databases, QA Fundamentals, Algorithms.
- Active participation in QA projects combining theory with real-world testing practices.

PROJECTS

QA Practice Suite

May 2025

Jira, Postman, Swagger, Selenium, Manual Testing

- Designed and executed **20+ structured test cases** for **OrangeHRM**, uncovering **5 reproducible defects** and logging them in **Jira** with clear documentation.
- Applied diverse testing methods (**positive, negative, boundary, exploratory**) to maximize coverage and detect edge-case failures.
- Validated REST APIs using **Postman and Swagger**, ensuring correct response codes, data integrity, and error handling.
- Automated critical flows (login, navigation, forms) in **Selenium with Java**, improving regression speed and reliability.
- Built QA workflows combining manual + automation approaches, mirroring industry practices.

Vaultive: Media Streaming Platform

Mar 2025

C#, JavaScript, CSS, HTML, SQLite, REST-API, ASP.NET

- Built a platform that aggregates movies, documentaries, and short films from services like Netflix, Disney+, and Apple TV into one accessible interface.
- Implemented backend in **C# & ASP.NET** with authentication; validated via unit/integration testing.
- Developed responsive frontend and confirmed client-server communication through **RESTful APIs**.

CERTIFICATIONS & TRAININGS

- ISTQB Foundation Level (CTFL) V4.0 [↗](#)
- AWS Academy Cloud Foundations [↗](#)
- Foundational C# with Microsoft Certification [↗](#)

ACADEMIC ACTIVITIES

Student Council, PJATK

Oct 2022 – Current

Student Council Member

Warsaw

- Represented international students, gathering feedback and presenting improvement ideas.
- Coordinated activities enhancing student engagement, teamwork, and communication.
- Developed problem-solving and organizational skills transferable to QA team collaboration.

DevFest Warsaw

Nov 2024

Attendee

Warsaw

- Attended talks/workshops on Google tech, AI, and cloud computing to stay current on industry trends.

Hackathon Krakow

Nov 2022

Attendee

Krakow

- Practiced rapid prototyping, idea validation, and debugging under time constraints.
- Collaborated with developers and mentors, improving teamwork and technical adaptability.

TECHNICAL SKILLS

- **Testing & QA:** Manual Testing, Test Case Design, Bug Reporting, Jira, Postman, Swagger, Basic Automation (Java & Selenium)
- **Programming:** Java, C#, SQL
- **Backend:** REST API Development with ASP.NET, Entity Framework
- **Frontend:** HTML, CSS, JavaScript, Jetpack Compose
- **Databases:** SQLite, MySQL, PostgreSQL, Oracle, MS SQL Server
- **Version Control:** Git, GitHub
- **Concepts:** OOP, SOLID, KISS, Agile basics
- **Systems Knowledge:** Windows Administration (DNS, DHCP, Active Directory, Networking)

STRENGTHS & LANGUAGES

- **Strengths:** Analytical mindset, clear documentation, defect reproduction, structured testing, cross-team communication
- **Languages:** Turkish (Native), English (Fluent), Polish (Beginner)
