SUMMARY

Quality Assurance Engineer with hands-on experience in **manual, API, and automation testing**. Proven in building and executing automated tests using **Selenium** and **Playwright**, validating APIs, and reporting high-quality defects in **Jira** within **Agile teams**. Focused on delivering reliable, well-tested software through structured and pragmatic testing.

TECHNICAL SKILLS

Testing & Automation:	Manual Testing, Selenium, Playwright, TestNG, Java, JavaScript, Automation Framework Design (Page Object Model), Bug Reporting
API & Database Testing:	Postman, REST API, SQL (PostgreSQL, MySQL, Oracle), JSON
Tools & Methodologies:	Jira, Zephyr, Git, GitHub Actions, Allure Reports, Agile (Scrum, Kanban)
QA Concepts:	STLC, SDLC, Defect Lifecycle, Test Documentation, Boundary Value Analysis, Equivalence Partitioning, Strong debugging and analytical mindset

EXPERIENCE

Fort Wise AI Solutions

Oct 2025 – Present

Quality Assurance Engineer (Part-Time, Remote)

- Performed **automation, manual, and API testing** for Telegram, Instagram, and Messenger bots using **Playwright and Postman**, validating functional correctness, edge cases, and user interaction flows.
- Developed and executed **automated test scenarios** with Playwright to verify bot behavior, message handling, and workflow stability across platforms.
- Validated REST API responses and backend logic using Postman, ensuring data integrity and correct error handling.
- Reported and tracked defects in **Jira** with clear reproduction steps, expected vs actual results, and supporting evidence, collaborating closely with developers in a remote Agile environment.

EDUCATION

Polish-Japanese Academy of Information Technology

Oct 2022 – 2026

Bachelor of Science in Computer Science

Warsaw, Poland

PROJECTS

Quality-Assurance-Portfolio

May 2025

Jira, Postman, Swagger, Selenium, Manual Testing, Maven, TestNG,

- Developed and executed **55+ automated test cases** (positive, negative, smoke, regression) for **Zara's e-commerce site** using Java, Selenium, TestNG, Maven, and Allure, ensuring UI reliability, data accuracy, and stable product-cart workflows.
- Designed and executed **40+ manual test cases** for the **OrangeHRM open-source HR system**, identifying 5 reproducible defects and logging them in Jira and Zephyr. Focused on validating login, employee management, and leave modules to ensure functional accuracy and usability.
- Developed and executed **47+ automated test cases** for Saucedemo web app using Selenium, TestNG, and Maven, organized into smoke, regression, positive, and negative groups; integrated with Allure reporting and GitHub Actions CI/CD for cross-browser validation.
- Documented detailed **test cases, execution results, and bug reports** in Jira and TestRail for reproducibility and traceability.

- Executed **30+ manual and API tests** validating user authentication, subscription logic, and API response accuracy.
- Validated REST API endpoints using Postman and SQL queries for backend verification.
- Reported and tracked defects in Jira ensuring reproducibility and timely resolution.

CERTIFICATIONS & TRAININGS

- ISTQB Foundation Level (CTFL) V4.0 – Udemy Preparation Course [↗](#)
- AWS Academy Cloud Foundations [↗](#)

Volunteer

Student Council, PJATK

Oct 2022 – Current

International Committee Member

Warsaw

- Represented international students, gathering feedback and presenting improvement ideas.
- Coordinated activities enhancing student engagement, teamwork, and communication.
- Developed problem-solving and organizational skills transferable to QA team collaboration.

NG Poland

Jan 2025 – Current

Volunteer

Warsaw

- Supported event organizers during NG Poland conferences by assisting with event setup, logistics, and on-site coordination.
- Helped ensure smooth event flow by guiding attendees, managing sessions, and responding to organizational needs.
- Gained hands-on experience in teamwork, responsibility, and real-time problem solving in large-scale tech events.

Codemify

Sep 2025 – Current

Quality Assurance Mentor

Remote

- Mentored junior QA testers in **manual and automation testing**, covering test case design, defect reporting, and testing fundamentals.
- Reviewed manual and automated test cases, providing clear, actionable feedback to improve coverage, clarity, and reproducibility.
- Recorded **instructional videos** to explain QA concepts, tools, and testing workflows, improving learning consistency.
- Provided **daily support** by answering questions and conducting **1:1 mentoring sessions** to resolve blockers and reinforce best practices.

SOFT SKILLS & LANGUAGES

- **Soft Skills:** Clear defect documentation, reliable test reproduction, effective cross-team communication
- **Collaboration:** Effective communication in cross-functional international teams, adapting to fast-paced environments.
- **Languages:** Turkish (C2), English (C1), Polish (A1)
